Dear Royal University for Women family, new students and parents,

On behalf of the University's Board of Trustees, I welcome you to Royal University for Women, the first private university in Kingdom of Bahrain to achieve the esteemed HEC accreditation. It is my profound honour to be welcoming you as Chairman of the RUW Board of Trustees and Board of Directors. RUW was founded by the esteemed Mr. Mohammed Al Zamil whose absence will always be felt but whose vision I am proud to uphold and continue to build upon.

Royal University for Women (RUW) is the first private, purpose-built, international University in the Kingdom of Bahrain dedicated solely to the higher education of women. RUW’s initial degree programmes were designed in collaboration with two reputed universities, McGill University in Canada and Middlesex University in the U.K. We are proud that RUW provides our students with a conducive environment in which to develop vibrant personalities, create leaders, dynamic decision makers, independent thinkers and community conscious individuals. Our main focus is on academic excellence and personal development.

RUW's curriculum is designed to meet internationally recognized standards. Our custom-built campus serves undergraduate students in four Colleges as well as graduate students of College of Art & Design. RUW is proud of its Memorandum of Understanding with West Virginia University, USA. This MoU is aimed at developing undergraduate and graduate programmes, enhancing pedagogical skills of faculty, student exchange and organizing workshops and conferences. In addition, we are working in different areas of cooperation with our new partners, University of Bangor, UK, and Dar Al Hekma University, KSA.

RUW is proud to celebrate its milestones achievements, rewards and recognition during these years. The accomplishments of the past years are remarkable and extraordinary.

In June 2018, RUW witnessed with pride, the graduation of its tenth cohort of students. These young women represent not only the aspirations of their families but also hold the key to the bright future of the Kingdom of Bahrain.

RUW’s commitment to Quality is evidenced in the important milestones received in the past years. In AY 2017-18 College
of Art & Design receive Confidence Rating from BQA in all its four programmes in the Programmes-within-College review. In the year 2014, College of Business and Financial Sciences received ‘Confidence’ in all three programmes in the Programmes-within-College review. Additionally, in the AY 2015-16 the College received the validation of the NQF mapping of two of its programmes. RUW became one of the first two universities listed on National Qualifications Framework, which is a significant accomplishment by the university in its endeavor for providing quality education. RUW also received the grade ‘good’ in HEC rating, which is the highest grade for a private university.

I trust that the wide scope of activities offered by each of the colleges will give you a clear perspective of how excellence is ingrained in all our practices whether in academia or in student life.

I extend my sincere thanks to the Board of Trustees, the Board of Directors, the Executive Committee, RUW management, faculty and all administrative staff Members for their dedication and their commitment to excellence.

14. Academic Programmes and Degrees Offered at RUW

14.1 Centre for General Studies

The Centre for General Studies at RUW runs the English for Academic Success Programme and Liberal Arts Requirement (LAR) Programme.

14.1.1 Orientation Programme:

This Programme is a unique preparatory one-year programme, which is assured by Pearson UK and systematically develops the skills, knowledge and attitudes necessary for academic and personal success in subsequent undergraduate degree programmes at the University.

The programme takes a holistic approach to student learning focusing on developing relevant language and academic skills, as well as providing experiences that promote confidence, independence, and academic qualities. A commitment to life-long learning is achieved through the programme reflecting the beliefs of a ‘learning community’ that values autonomy, collaboration and the importance of continually learning throughout one’s personal and professional life.

The programme results in high standards of English language in terms of the four macro skills. There is a strong emphasis on the English for Academic Purposes (EAP) and the students are equipped with the necessary skills to pursue their undergraduate studies. Applicants may join the Programme at any of the two intakes during the academic year. After taking an online placement test they are assigned to one of the two concurrently run levels based on their ability. Each level runs for one semester and consists of two different courses.

The Orientation Programme takes place on-Campus where students are expected to mix with their peers in other programmes and participate fully in all extra-curricular activities.

Success in the Programme demonstrates that a student has met the RUW English competency level required for admission to its degree programmes. Upon successful completion of the Programme, students will be awarded the Diploma in English for Academic Success assured by Pearson, UK.

The result of the placement test determines which of the two levels is appropriate for the applicant. The two levels available are:

a. EAS1 – English for Academic Success 1:

This level consists of two courses each focusing on two of the four macro skills (One receptive skill and one productive skill). Since the programme is holistic in nature with a communicative approach, the students have the opportunity to make use of knowledge gained to produce written and oral work, participate in class discussion, comprehend a variety of texts on familiar and rather unfamiliar topics and draw conclusions. Developing critical thinking skills is also an integral part of both courses.

Students with a Placement Test score equivalent to the IELTS Band score below 2.0 will be assigned to this level.

b. EAS2 – English for Academic Success 2:

This level also consists of two courses each focusing on two of the four macro skills (One receptive skill and one productive skill). Since the programme is holistic in nature with a communicative approach, the students have the opportunity to make use of knowledge gained to produce written and oral work, analyse information on a variety of
familiar and rather unfamiliar academic topics, and construct arguments. In addition, developing critical thinking skills is an integral part of both courses. Students with a Placement Test score equivalent to the IELTS Band score of 3 to 5 will be assigned to this level.

The programme is designed to prepare students for entry to a degree programme taught in English. Placement in this level allows eligible students to select one credit bearing Liberal Arts Requirement course or another course from the degree programme of their choice. The fee for the credit-bearing course is based on the applicable rate of the programme selected.

### 14.1.2 Liberal Arts Requirement (LAR) Courses:
Liberal Arts Requirement (LAR) Courses are Elective courses offered to all RUW students as part of their university studies. LAR courses generally aim at imparting knowledge and developing student’s critical thinking and intellectual capabilities.

LAR courses do not emphasize any specific specialization but develop the students’ rational thought and intellectual capacities in general. Such courses pertain to general knowledge and life skills. Liberal Arts Courses (LAR) fall under 8 categories (skill based or knowledge based).

1. Languages
2. Humanities
3. Social Sciences
4. History
5. Natural Sciences
6. Arts
7. Literature
8. Philosophy

Students are required to complete seven LAR courses as part of their studies. The courses can be taken at any point during their four years of study. Of the seven courses, three are mandatory and the remaining four are electives and can be chosen from over 25 available courses depending on the students’ interests and future career plans. The three mandatory courses are:

1. Arabic Language

19. Academic Records and Transcripts

19.1 Credit System

RUW Colleges use a credit system to indicate the number of contact hours with a teacher and the study time of the course. A credit hour is a contact hour. A course is a self-contained unit of study which is the responsibility of a single faculty member. A course is defined in terms of contact hours for instance, a ‘3 credit course’ equates to 3 contact hours per week for one semester, totalling 45 contact hours per semester. For studio based courses contact hours may be more than the credit hours.

19.2 Course Specifications

Course specifications are available from the respective Dean of College. They include the course descriptions, intended learning outcomes, assessment details, content and topics, instructional material and resources, method of evaluation, credit hours and prerequisites.

19.3 Pre-requisites and Co-requisites

i. Students must pass a pre-requisite course with a minimum passing grade.

ii. If the student has not passed the pre-requisite course, registration is at the discretion of the Dean of College in consultation with the Registrar.

iii. Equivalent courses satisfactorily completed with a grade of ‘C’ at other institutions may also meet prerequisite requirements for transfer of credit upon approval of the relevant Dean of College.

19.4 Grading

Courses can be graded either by letter grades or in percentages depending on course content, but the official final grade for each course is the letter grade.

Note: For Masters Programmes the grading scale is available in the RUW Postgraduate Studies Regulations.

The following abbreviations may be used in student grade sheets and transcripts:

**AU: Audit category**
This category of enrolment applies to student(s) enrolled in a programme, a number of courses or a single course for the purpose of benefiting from obtaining knowledge or to fulfill an interest on certain topics. Audit courses are neither included in the calculation of GPA nor towards credit hours.

**CM: Change Major**
This category applies to student(s) who transfer from an academic programme to another programme at the same college or to another college where not all courses are transferrable to the new programme. Those non-transferrable courses are then marked with ‘CM’ and not counted towards the students’ new GPA.

**INC: Incomplete**
This category indicates pending grade for which the student has not submitted all required work, assignments, or projects and exams for that particular course.

**TR: Transferred Credit**
This category refers to credits that are transferred from an accredited university. Transferred credits will be reflected on the original transcript and will be included in the cumulative credits passed, but will not be included in the calculation of GPA or towards total credit hours attended.

**P: Pass**
A grade given to a particular course with a pass grade is not included in the GPA but is recorded as attended.

**W: Withdrawn**
A “W” is reflected in the transcript if a single course or multiple courses are dropped after the add/drop and before withdrawal deadline has elapsed. The “W” does not impact on the calculation of the GPA nor towards total credit hours attended or passed.

**N/A: Not Applicable**
Indicates that a relevant grade is not applicable for calculation or is not recorded in the transcript and not included in the calculation of GPA.

**F: Fail**
Indicates that a student has failed a course and affects the calculation of GPA and total credit hours attended and passed.

### 19.5 Grade Point Average (GPA)

i. Academic standing is determined on the basis of the Grade Point Average (GPA).

ii. The Semester Grade Point Average (SGPA) is the grade point average earned in a particular semester. It is calculated for each semester using all course grades.

iii. The Cumulative Grade Point Average (CGPA) is calculated using the entire record of courses including repeated courses.

iv. Grades D and F are included in the calculation of the CGPA.

v. A repeated course is indicated with a notation of [] on the transcript.

vi. A student may repeat a failed course to obtain a better grade and improve her GPA.

vii. The failing grade will appear on the transcript along with the repeated course.

viii. A repeated course with a [] notation overrides the failing grade and is counted towards the calculation of the CGPA.

### 19.6 Projected Grades

i. A student’s projected grade for a course section will be calculated using the student’s grades for the course activities which the instructor has chosen to count toward the final grade.

ii. Student’s projected final grades will be displayed online via PowerCampus self-service system on the faculty Grading page, on the students’ Grade Reports, and for advisors.

iii. If the student has received a grade for at least one course activity, the system can calculate the final grade the student is projected to earn for the course.

iv. All graded activities will be used to calculate the projected grade for a course. No activities are dropped.

v. The system will display the projected Score for the course and the corresponding letter Grade, according to the specified Final Grade Mappings.

vi. The projected grade will be listed until the end of the last teaching week of each Academic semester.

vii. The projected grade calculations are NOT and should not be considered your official final course grade. Official final grade will be reported at the end of the Academic Semester.

g. Students studying in the English for Academic Success programme do not qualify for the ‘A’ Credit.

h. Students with academic misconduct cannot apply for the ‘A’ Credit during that semester.

24.4.2 Computer Use Guidelines

Rationale

The following guidelines aims to ensure that all members of the academic community have adequate access to computers and information resources for these purposes and that they observe the legal and contractual requirements associated with the use of such resources. Computers, software and electronic resources are provided on campus to support learning and research, and not for purposes of entertainment or private business.

The guidelines also covers safe use of computer labs and other facilities on campus, to avoid the spread of viruses, inadvertent deletion of files or software and other misadventures that would hinder optimal use of the facilities by the academic community.

Description

The guidelines includes student, faculty and staff use of computers on campus, as well as use of RUW-licensed software and electronic resources accessed on campus or remotely.

The campus computers and RUW-licensed software and electronic resources are for the use of RUW students, faculty and staff only. Computers must be used responsibly, safely and ethically. Users may not

ii. Copy licensed software from a campus computer onto a personal computer, or flash stick.

iii. Share user account credentials with others.

iv. Attempt to resolve by themselves any mechanical issues related to printer or computer breakdowns; equipment malfunctions must be reported to the class instructor or ICT personnel immediately.

v. Stop a virus scan running on any campus computer. To avoid the spread of computer viruses, virus detection software is set to run automatically each time removable storage is used and must not be stopped or viruses will not be detected.

vi. Save individual class work or personal files to a campus computer.

vii. Students must provide their own flash memory for their own files and must save their work to removable media, such as CD-R or CD-RW, or flash memory sticks. Removable media must be checked for viruses by a designated person before they are used in any campus computer equipment.

viii. Use personal laptops on campus without first having them an operational antivirus software.

ix. Use a campus computer for any purpose that is illegal according to the laws of the Kingdom of Bahrain, e.g., ‘hacking’.

x. View, download, print or transmit any unlawful material deemed unacceptable according to the values and laws of the country.

xi. Use any P2P software.

xii. Use a computer to invade the privacy of another person; to harass or threaten someone.

xiii. Send unsolicited, non-academic messages such as chain letters or jokes to a list of recipients.

xiv. Access another person’s private files or e-mail without their permission.

xv. Use a campus computer for purely recreational purposes such as games or chat rooms; or for personal business.

ii. Requests for name changes must be made by completing the relevant forms in person, and presenting the appropriate legal documents to the Office of the Registrar.

iii. Students should also notify their Academic Advisor when such a change is made.

25. Academic Integrity Code
Academic integrity is not merely a matter of conforming to rules; it must be understood in terms of the broader purposes of a university education.

i. The main purpose of a university is to encourage and facilitate the pursuit of knowledge and scholarship. The attainment of this purpose requires the individual integrity of all members of the University community.

ii. The University states unequivocally that it demands scholarly integrity from all its members. Academic dishonesty, in whatever form, is ultimately destructive to the values of the University.

iii. In submitting work in their courses, students should remember that plagiarism and cheating are considered to be very serious offences.

iv. Students who have any doubt as to what might be considered plagiarism in preparing an assignment should consult the following section on plagiarism and talk to their Instructors and academic advisor(s) to obtain appropriate guidelines.

v. The possession or use of unauthorized materials in any test or examination constitutes cheating.

vi. The Student Handbook includes the Student Code of Conduct.

vii. All members of the University community (students, faculty members, instructors, staff, invigilators) have the responsibility for the maintenance of an atmosphere of academic integrity in all phases of academic life, including research, teaching, learning, and administration.

viii. Violating standards of academic conduct is a serious matter subject to disciplinary action.

Types of violations are listed and defined below. This section provides explanations and illustrations but does not exhaust the scope of these violations.

25.1 Plagiarism
Students are cautioned to include appropriate references and acknowledgment for the use of other people’s material.

Plagiarism means using the ideas of another individual without giving them proper credit. The other individual may be a published author, critic, journalist, artist, composer, lecturer, tutor or even another student. Unintentional plagiarism can occur if you don’t understand and use the acceptable scholarly methods of acknowledgement. In either case, the University will impose penalties, which can be very severe as per RUW Plagiarism Policy. The lecturer will inform the student in writing of all incidents of plagiarism. Copying books, sections or portions of books is prohibited by law. Please refer to the Disciplinary Policy Section for more details on Penalties and Procedures and the Regulations for Students Violation of Professional Conduct.
25.2 Intellectual Honesty

Intellectual honesty is accepted as the cornerstone of the development and acquisition of knowledge. Since knowledge is cumulative, further advances are predicated on the contributions of others.

In the normal course of scholarship these contributions are apprehended, critically evaluated, and utilized as a foundation for further inquiry. Intellectual honesty demands that the contribution of others be acknowledged. To do less is to cheat. To claim contributions and ideas of another as one’s own is to deprive oneself the opportunity and challenge to learn and to participate in the scholarly process of acquisition and development of knowledge.

Therefore, the University insists on intellectual honesty in scholarship. The control of intellectual dishonesty begins with the individual’s recognition of the standards of honesty expected and his/her compliance with those expectations.

### 33. Student Travel

#### 33.1 Educational Travel

**Rationale**

International travel and local field trips are integral parts of RUW’s approach to teaching and learning. They enhance the curriculum in both formal and informal ways, and allow students to frame wider perspectives, apply and test theoretical concepts and gain practical knowledge and experience beyond the walls of the University.

In addition to these educational benefits, travel enhances student life by providing opportunities for developing leadership and communication skills, appreciating the global context of this century, practicing the liberal arts values of our curricula and increasing the sense of personal responsibility for all participants.

**Framework**

RUW recognizes and endorses three (3) kinds of educational travel:

i. **Local field trips**: organized in relation to a specific course or curriculum.

ii. **International Educational Travel**: organized to facilitate or support college / institutional curricular or educational goals and objectives.

iii. **Global Learning Courses**: courses, conferences, workshops, seminars related to or part of a specific course or curriculum.

**Note:**

- Field trips that are part of the curriculum/course are mandatory and they are supported by the University and are approved by the Dean of College and supported by Dean of Students.
- The Dean of College/ Dean of Students and the Student Activities Officer will work to prepare a yearly plan and schedule of travel during the year.

**Institutional Liability**

i. While RUW considers the safety of all its students, faculty and staff to be of paramount importance in organizing off-campus events, the University can accept no responsibility for unforeseen incidents.

ii. Approved chaperones will accompany students on activities.

iii. RUW will ensure that parents/guardians are aware of all activities their students are taking part in.

iv. All parents will provide their consent (in general or specific terms) for their students’ participation in these activities.

v. All students will be expected to adhere to the RUW Student Code of Conduct during all external activities and will be asked to sign an undertaking prior to participation in any international programme.

vi. For optional international excursions, student participants will normally be expected to be performing at an acceptable academic level before being invited to participate.

vii. It is the responsibility of all student participants to ensure that they have international health insurance, Visa etc. RUW will facilitate the process of obtaining these.

#### 33.2 Local Field trips within Bahrain

**Procedures**

Field Trips in Support of Specific Course(s), Curricula or Programmes:

i. A rationale, itinerary and budget for such field trips must be approved by the Dean of College (or colleges if appropriate) at least 2 weeks prior to the event, and provided to the Dean of Students for information.

ii. Transportation has to be booked through the Dean of College/ Dean of Students.

iii. The faculty member organizing the field trip will ensure that parental consent letters are issued to the
parents/guardians of all students participating. The letter will indicate (at a minimum): date and place of departure and arrival back on campus; destination; the course of which the trip is part of; the faculty member in charge of the trip and other pertinent details.

iv. The faculty member organizing the field trip will ensure that an appropriate number of accompanying staff are available to support the excursion and will advise the Dean of College of the names; normally, there must be one faculty member for every 15 students. If more than 15 students are participating in the field trip, additional chaperones have to accompany the group. When possible, the Dean of Students will support these activities.

v. Departure for field trips must be to and from the university only. The only exceptions to this will be those authorized in writing by parents/guardians.

33.3 International Educational Travel

It is recommended that for International Educational Travel for Students follow this procedure:

- The University aims to take students on relevant international educational field trips. These trips are viewed as an enrichment activity on the basis of voluntary participation, though they are not mandatory. When these trips are organised by Colleges or the Dean of Students:
  - The Itinerary, including travel and hotel arrangements must be sent to College Council 3 months prior to the trip and obtain approval.
  - The proposal of trip is submitted to Dean’s Council 2 month prior to departure for consideration/approval from the Senior Management Committee (SMC) through DC.
  - Faculty must submit a detailed report to their College Council upon returning from the trip highlighting the educational value and including a statement of expenses.
  - Except in exceptional cases, these trips must be scheduled to occur during non-academic times.
  - Parental consent forms are required for all participants embarking on international trips.
  - Students must travel to and from the University as outlined in the permission letters. No other arrangements, other than those exceptionally arranged in advance by parents / guardians, are acceptable.

33.4 Global Learning Courses

These trips are part of the courses with global learning component. They are integral part of the courses and must be undertaken in order to meet the intended learning outcomes of the course.

- The Global Learning Course with travel plan should be a part of the College Academic Plan in the beginning of the academic year.
- The Itinerary, including academic content, must be finalised within the college in the beginning of the AY when this course is going to be offered, with necessary approvals through proper channel.
- The travel must state a learning outcome relevant to a course, series of courses or programme.
- The chaperones are selected based on their relationship to the academic purposes of the travel.
- The Global Learning course should be advertised effectively for the students awareness and participation.
- The students attending the trip produce written journal entries daily and attend a daily debriefing by the faculty member.
- The students are required to complete a questionnaire evaluating the experience prior to departure from the venue. Faculty members must submit a detailed report to their College Council upon returning from the trip highlighting the educational value and including a statement of expenses.

33.5 Chaperones

i. RUW endeavours to provide one (1) adult chaperone for every 10 students to ensure a safe and rewarding experience during an international trip. For trips with 11-20 students, two chaperones will accompany. For more than 21 students the number of chaperones will be considered on a case by case basis.

ii. Chaperones must be over 18 years of age and not currently attending the University as students.

iii. Parents and female relatives of the students may be appointed as chaperones by the Dean of Students; in which case they will be provided with an outline of expectations and trained by the Dean of Students.

iv. Chaperones accompanying students are expected to provide constant supervision.

v. Supervision includes transit, visit and leisure time, and requires the preparation of a careful schedule of responsibilities to ensure presence at restaurants, hotels/hostels etc.

vi. For all types of educational trips, (whether local or international) a consent letter is issued to each participant for signature by their guardian.

vii. Students are also required to sign a Student Undertaking with the Dean of Students/ College.
